During his life Dr. James Naismith worked as a doctor, taught P. E. and wrote several books. While he never thought it very important, Dr. Naismith is today best known for one thing. He was the inventor of basketball. Dr. James Naismith was born in Canada in 1861 and his first job was at a special sports school in the USA. One day the school told James he was having a problem with the students. Because of heavy snow, the students could not go outside. He told

James that they needed a sport the boys could play indoors and gave the teacher two weeks to think of something. It was on the very last day that James came up with his idea. The"birth of basketball"is said to be on December 21, 1891, when two teams from the school played the first game. It was quite different from the basketball games of today. It had 9 players on each team and footballs were used instead of basketballs. Soon after, the game changed to 5 players on each side, using special"basketballs"through nets.

Although Dr. Naismith did not live to see basketball become the worldwide game it is today, in 1936, just three years before his death, basketball became an Olympic sport at the games in Berlin.

VANCOUVER(Reuters) -Four-time champion South Korea learned it had been disqualified(取消资格) while skating a celebratory lap, (圈) of honor on Wednesday to give China Olympic gold in the women's short track 3, 000m relay. Canada took the silver, with the United States picking up the bronze.

South Korea's skaters had already started waving flags in joy after crossing the line ahead of the rest of the field but a lengthy referee review decided Kim Min-jung had impeded(妨碍) during an exchange push with just a few laps remaining.

"I was not surprised by the disqualification because collisions(碰撞) happen all the time

in short track, "Wang Meng, who cost China a medal in Turin four years ago when she was judged to have impeded, told reporters.

China have dominated the women's event in Vancouver, winning all the four golds with individual golds for Wang in the 500m, 1, 000m and Zhou Yang in the 1, 500m.

China's first Olympic relay gold came in a record time of four minutes 6.610 seconds thanks to a team featuring Sun Linlin, Wang, Zhang and Zhou.

With six laps remaining, Korea were trailing China and during an exchange they thought they could overtake but Kim cut across China's path while trying to make the pass.
